

## FF FCP501

# Intelligent Addressable Fire Alarm Control Panel

**EN54-2**  
**EN54-4**

## FEATURES

- ▶ Color LCD display with detailed information visualization
- ▶ Next-generation high-speed processor architecture
- ▶ 255 addressable devices supported per loop structure
- ▶ Isolated loop design
- ▶ CAN Bus-based reliable communication infrastructure
- ▶ Advanced event memory with 2000 record capacity
- ▶ Multi-level user access (Level I – Level II – Level III)
- ▶ EN 54-2 and EN 54-4 certified

## TECHNICAL SPECIFICATIONS

Supply Voltage	230 VAC / 1 A / 50 Hz
Backup Power Supply	2 × 2.6 Ah 12 VDC
Loop Voltage	24 VDC
Loop Current	0 – 150 mA
Operating Temperature	-10°C to +55°C
Storage Temperature	-10°C to +55°C
Relative Humidity	≤ 95% (non-condensing)
Dimensions (H × W × D)	322 × 80 × 140 mm

## ORDER DETAILS

- ▶ FF FCP501 – Intelligent Addressable Fire Alarm Control Panel, 1 Loop, 1 × 255 Address Capacity
