

FF OT500

Intelligent Addressable Smoke and Heat Detector

CE
CPR

EN54-5
EN54-7

Features

- Intelligent Addressable Smoke and Heat Detector
- Microprocessor
- Infrared working principle
- Heat Plus and Constant Temperature working principle
- Non-polarized two-wire connection
- Sensor fault monitoring for temperature, humidity and dust
- Pollution-Failure Report
- Remote output
- EN54-5 and EN54-7 Certified
- LPCB Approved
- CPR Certificated

Technical Specifications

Operating voltage	18.5V~26V
Operating Current	≤0.3mA
Operating Alarm Current	≤0.8mA
LED display	Kırmızı
LED Polling	Flash
Operating temperature	-5°C~+50°C
Storage Temperature	-5°C~+50°C
Moisture Bond	≤95%
Size	100x51 mm
LPCB document no.	xxx
CPR document no.	xxx

Order Details

- FF OT500 Intelligent Addressable Smoke and Heat Detector
- FF BS500 Standard Socket for FF O500
- FF LED LED Indicator
