

FF SMOKE-T

Smoke and Heat Detector Tester

FEATURES

- ▶ Smoke and Heat test
- ▶ No test gaseous 300 devices test
- ▶ Economic, fast and easy test
- ▶ Adjustable inspection pole, one button operation
- ▶ Using the remote control or smartphone

TECHNICAL SPECIFICATIONS

- | | |
|----------------------------|---|
| ▶ Testable detector | Rate of rise heat detector, Fixed temperature heat detector Ionization smoke detector, Photoelectric smoke detector, Option: Analog type detector, Option: Unexploded type(Heat) |
| ▶ Head size | 150mm (Detector insertion) |
| ▶ Inspection pole length | Minimum 127cm / Maximum 250cm |
| ▶ Weight | 2,3 kg |
| ▶ Material | Aluminum, etc. |
| ▶ Operation temp range | 0 ~ 40°C |
| ▶ Keeping temp range | -10°C to approx. 40°C |
| ▶ Operation humidity range | 0 to approx. 85%, No Frost |
| ▶ Smoke generator ability | Approx. 1000 tests with 100 ml liquid |
| ▶ Battery | 14.8V Li-Ion - Fully charged in about 5 hours |
| ▶ Charger | Input:AC 100-240V, 50-60 Hz. Output:DC 12V 2A |
| ▶ Tester ability | Approximately 200 heat detectors Approximately 300 smoke detectors |
