

VW2W 100 WIRELESS SYSTEM RECEIVER/TRANSMITTER

EN54-25

FEATURES

- ▶ Two-way communication with wireless transmitter from cable
- ▶ 7 transmission channels (868MHz)
- ▶ High security and safe transmission
- ▶ Control warranty with central multi-colored LED from 360°
- ▶ Battery status monitoring with dual battery special feature
- ▶ Fast, easy and economical installation
- ▶ Patented dual orthogonal antennas for secure communication
- ▶ Communication with 32 wireless items

TECHNICAL SPECIFICATIONS

Product Code	VW2W 100
Operating Frequency	868-970Mhz
Modulation Type	FSK
Frequency Channel No	7 channels
Operating Voltage	fed from loop
Current	25mA
Sensing Distance	600m
Operating Temp.	-30°C +55°C
